Dear Koh Rui Cheng, Brendan,

We are writing to you to congratulate you on your outstanding performance in CS2030S *Programming Methodology II* for AY2022/2023 Semester 2. Your performance placed you among the top 3% in a class of 749 students.

We believe that it is appropriate to provide a letter of commendation to students whose performance has been truly outstanding, distinguishing them from other students who received A+'s in this subject.

It was a pleasure having you in our class. We wish you the very best in your studies and future endeavours.

Sincerely,
